PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building scalable full-stack web applications using React.js, Next.js, TypeScript, Node.js, NestJS, PostgreSQL, and MySQL. Experienced in AWS cloud services, real-time systems, AI-powered applications, payment integrations, and workflow automation. Proven experience taking products from requirements and architecture through development, optimization, and production deployment.

EDUCATION

BSC in CSE , Port City International University	01/2019 – 01/2023
Thesis: Bangla Speech Emotion Recognition Using Machine Learning and Deep Learning Methods.	Chattogram, Bangladesh
Higher secondary school certificate , Moulavi Shamsul Karim College	2018 Feni, Bangladesh
Secondary school certificate , Chhagalnaiya Academy	2016 Feni, Bangladesh

WORK EXPERIENCE

Mediusware Ltd , Software Engineer II Full-Stack Engineer	03/2024 – present
- Built scalable full-stack applications with React.js, Next.js, TypeScript, NestJS, tRPC, and PostgreSQL. - Developed AI-powered chatbots, document processing, and workflow automation using n8n and Zapier. - Built secure cloud systems with AWS and managed deployments using Docker, Nginx, Cloudflare, WebSockets, and queues. - Collaborated with cross-functional teams to deliver production-ready solutions.	Dhaka, Bangladesh
Fashion Glory Company Limited , Software Engineer Full-Stack Engineer (Part Time - Remote)	11/2024 – Present
- Developed scalable e-commerce, POS, and mobile applications using React.js, Next.js, Node.js, MySQL, and AWS-based tooling. - Built real-time features for communication, inventory, orders, and payment workflows using Socket.IO and BullMQ. - Integrated multiple Thailand payment gateways including Vexora, Rubik Pay, TS Pay, and Bangkok Bank. - Delivered reliable, scalable solutions while collaborating with cross-functional teams.	162/26 NaNai Road, PaTong, Kathu, Phuket-83150, Thailand
LYXA , Frontend Developer (Full Time)	08/2023 – 03/2024
	Dhaka, Bangladesh
LYXA , Frontend Developer (Intern)	04/2023 – 08/2023
- Implemented complex features for LYXA e-commerce system, including zones, sales, accounts, and admin modules. - Collaborated with stakeholders to translate business requirements into improved user experience and solutions. - Worked on web development, UX design, and project coordination. - Gained hands-on business and domain experience working with LYXA.	Gulshan Niketon, Dhaka, Bangladesh

AWARDS

Outstanding Software Engineer (Javascript), Mediusware LTD
Recognised as a outstanding software engineer at Mediusware gala event.

28/12/2025

SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React.js, React Native, Next.js, Redux, HTML5, CSS3
- **Backend:** Node.js, Express.js, NestJS, tRPC
- **Databases:** PostgreSQL, MySQL, MongoDB, Supabase
- **ORM & Data Access:** Drizzle ORM, TypeORM, Sequelize, Mongoose
- **Cloud & DevOps:** AWS Cognito, AWS Lambda, AWS IAM, AWS SQS, AWS SNS, AWS SES, Docker, Nginx
- **AI & Automation:** OpenAI API, Document AI, Open-Source LLMs, Fine-Tuning, Embeddings, Vector Databases (ChromaDB, FAISS, Pinecone, Weaviate), LangChain, LangChainJS, AI Chatbots, RAG, n8n, Zapier
- **Real-Time & Networking:** WebSocket, Socket.IO 

PROJECTS

- OurStoryz – Event Management Platform**  12/2025 – Present
- Built a scalable **event management platform** for office events, weddings, meetings, and social experiences using **React.js, Node.js, and AWS**.
 - Developed organizer dashboards and a guest mobile app with **real-time interaction and media sharing**.
 - Implemented secure **AWS Cognito/IAM authentication** and integrated **SES, SNS, and SQS** for notifications and background processing.
 - Built **Stripe payment integration** and scalable data architecture using **TypeORM and MySQL**.
- Pet Parent, Pet Licensing & Animal Welfare Platform** 2024 – 2025
- Developed a full-stack pet licensing platform using **T3 Stack (Next.js, TypeScript, tRPC)** with **Clerk** authentication.
 - Built scalable **PostgreSQL + Drizzle ORM** architecture and integrated **Authorize.Net**  for secure payments.
 - Integrated **Mailgun** for transactional emails and developed **Bulk Report Analysis** for large-scale data processing.
 - Implemented **Document AI Parser** and responsive admin tools for managing pets, owners, licenses, payments, and reports.
- GloryPOS – Point of Sale (POS) System (Fashion Glory Limited)**  01/2025 – 07/2025
- Built a web and Android-based POS system for retail sales, inventory tracking, and financial reporting.
 - Implemented role-based access for admins, managers, and cashiers with secure authentication.
 - Enabled real-time updates using Socket.io  for sales and inventory sync.
 - Supported multi-branch operations with a scalable architecture.
 - Developed using React.js, Node.js, Express.js, MySQL, and Socket.io .
- Lyxa - Food Delivery Site**  04/2023 – present
- Enhanced Lyxa e-commerce with complex features.
 - Collaborated with cross-functional team for requirements.
 - Developed precise zone coverage system for deliveries.
 - Managed sales, accounts, and served as super admin.
 - Improved UX and platform performance with unique functionalities.
